Program Coordinator Report: The program is progressing as planned, but due to wet weather Howlong have cancelled their event. Clr Gerry Cox to contact Wagga Country Club as to whether they are progressing with the programmed event next year. If not Tura Beach Country Club to be given the chance to come on board 12months earlier than planned. Moved on motion Clr John Daley Seconded Clr Peter Guy- carried.
 2024 Program into version 7 and it is just about completed.

October Program Report 2022

Overview

All in all, this year's program is progressing as planned. Some wet weather has hindered some events, but they were able to complete. Howlong, however, has been cancelled due to wet weather.

Next years program has been tidied up by removing those events that are not proceeding and adding TD contact information. All that needs to be added is Councillor participation at each event.

2023 Program

Who is going to take over the Wagga NSWVGA Championship event. We have two Councillors in the Riverina, so who will step up!!!

2024 Program

We are now into version 7, and this should be the last draft.

I have asked for any more changes to be conveyed ASAP so as the program can be finalised for presentation at the AGM.

Conclusion

Just a short report this month. We are on the Tag Along and we will be at Streaky Bay, S.A. for this meeting.

Find attached the 2024 draft.

NSWVGA WEBSITE REPORT – OCT 22

1. New Membership Register

An early version of the system was received in August, and this was reviewed by a number of Councillors. Many thanks for their help. The major issues were in the paging of search lists and the formatting of files for uploads and reports.

All the issues identified have been discussed with the developer and a second version was received 24 Sep, which solved most of the problems. This version is available to those Councillors who already have a login.

I have reviewed this and sent a list of remaining issues to the developer and these are being progressed right now.

To address the issue of file and report formats, I am developing Excel spreadsheets that provide step by step instructions and automate the process as much as possible.

It is expected that a 'clean' version ready for implementation will be available next week. The main item not included will be the facility to List all Members for a Club.

The database will have to be cleaned up, removing test data and anomalies, and outstanding updates from the old register will need to be applied.

We need to discuss the process of bringing users onto the new system. I have generated user logins and passwords for GSs, CSs (for Direct Affiliate clubs), TDs (2023), Councillors.

2. Membership tracking

There have been a number of comments regarding the group affiliations of members.

In the new Membership Register, we are keeping a record of every renewal, not just the current membership status. For each renewal we keep the following data:

- User who entered the renewal
- Date entered
- Year valid
- Date paid – optional
- Affiliation Group – optional

Identifying the User means that we can generate lists of what monies should have been received from whom for what and when.

The Affiliation Group is set by the User. In the normal case of a member joining through their local Group, this would be set to that Group. Where a member joins or renews through some other channel - e.g. at a tournament – the Affiliation Group may be set to None.

The Affiliation Group for a member may change from year to year.

The Affiliation Group can be used to accurately generate membership statistics by Group etc.

Unfortunately there is no reliable way to automatically set the Affiliation Group for members brought over from the old register. These will show as N/A – not available. The renewal process forces the User to set it for each renewal, so the N/As will progressively disappear.

3. Tournament entry

We have had a number of tournaments where the primary entry method is online, and in some cases the Tournament Director has not offered any alternative.

Where TDs are using the mitournament software, this only accepts entries if payment is made online using a VISA or Mastercard credit card. Note the mitournament software also requires the player to give date of birth and address.

I propose that we should require TDs to:

- a. allow entry using an emailed form and

accept a bank transfer as payment.

Note that this is **not** discouraging the use of online entry and payment - TDs are very welcome to use it, and the experience to date is that most players will use it. This is just recognising that there are some who are unable or unwilling to provide personal details online or to use a credit card online and that there should be an alternative for those who need it.

4. Email address lists

Up-to-date email lists for Group Secs, directly affiliated Club Secs, Tournament Directors and Councillors have been generated from the master details on the website. These are in CSV format which can be easily imported into any email program.

For the moment these have been sent as files to Councillors. It is my intention to set up a Dropbox to contain these and other reference documents, so that Councillors always have the latest versions available for use.

5. Public website

The notification of Ian's death has been given prominence on the Home page.

6. List of Duties

I have drafted a set of bullet points – distributed to Councillors. There is a lot of detail to back this up, much of which should be kept confidential.
